GitHub: github.com/Rahulmaurya1234

Portfolio: <https://rahulmaurya1234.github.io/my-portfolio/>

PROFESSIONAL SUMMARY :

Full Stack Developer with experience in building scalable web applications using **MERN stack (MongoDB, Express, React, Node.js), FastAPI, and Django**. Skilled in developing REST APIs, real-time systems using **WebSockets**, and responsive frontend interfaces using modern frameworks and **Bootstrap**.

Additionally experienced in **Artificial Intelligence and Machine Learning (AI/ML)** and Data Analysis, including data preprocessing, exploratory data analysis (EDA), and building data-driven solutions using Python, Pandas, NumPy, and **Google Colab**.

Passionate about combining full stack development with AI/ML to build intelligent and scalable applications.

TECHNICAL SKILLS:

Languages: Python, JavaScript, C++

Frontend: React.js, HTML, CSS, Bootstrap

Backend: FastAPI, Django, Node.js, Express.js

Database: MongoDB, SQLite, MySQL

Data & AI/ML: Data Preprocessing, EDA, Machine Learning Basics
Scikit-learn, Pandas, NumPy

Data Tools: Microsoft Excel (Pivot Tables, VLOOKUP), Power BI (Basic Dashboards)

Concepts: REST APIs, WebSockets, Real-time Systems, Data Handling

Tools: Git, GitHub, VS Code, Google Colab

EXPERIENCE:

Software Engineer

TRADEICT AI PRIVATE LIMITED | Jan 2026 – Present

Developed real-time trading bots using Python and FastAPI

Used WebSockets for real-time market data ,Designed and optimized REST APIs
Worked with live market data and implemented trading strategies
Processed real-time financial data streams
Built low-latency backend systems for high-frequency data processing

Full Stack Developer Intern (6 Months)

TUNO TECH (OPC) PRIVATE LIMITED | Jul 2025 – Jan 2026

Developed full-stack applications using MERN stack
Built REST APIs and handled backend logic
Worked on frontend UI and database operations
Completed 6 months training (Experience & Relieving Letter available)

TRAINING :

AI Virtual Internship – IBM (2 Months)

Learned fundamentals of Artificial Intelligence and Machine Learning
Worked on ML workflows and data preprocessing

Full Stack Development Training (Django) – RCPL

Built applications with authentication and APIs

Employability & Communication Skills Training – Infosys Initiative

Developed communication, teamwork, and professional skills
Pep Sales Star Workshop – PepsiCo
Gained exposure to business processes and workflows

PROJECTS :

Cross Exchange Trading Bot (FastAPI)

Developed a real-time algorithmic trading system using Async Python and FastAPI
Integrated multiple exchange APIs for live market data and order execution
Implemented cross-exchange arbitrage and funding rate strategies
Used WebSockets for real-time market data streaming
Designed asynchronous workflows for handling high-frequency data efficiently
GitHub: <https://github.com/Rahulmaurya1234/Cross-Exchange-Trading-Bot>

Crypto Exchange Platform (Full Stack)

Built a full-stack crypto trading platform using modern web technologies
Developed backend APIs for transactions, user data, and trading operations
Implemented authentication and secure user management system
Designed scalable architecture for concurrent users

GitHub: https://github.com/Rahulmaurya1234/crypto_exchange_platform

GolfGive (MERN Full Stack Application)

Developed a full-stack application using MongoDB, Express, React, and Node.js

Implemented authentication, dashboard features, and API integration

Built responsive UI and managed backend logic

GitHub: <https://github.com/Rahulmaurya1234/GolfGive>

Live Demo: <https://golf-give-seven.vercel.app/>

CareerConnect (Django Job Portal)

Developed a full-stack job portal with authentication and role-based dashboards

Implemented resume filtering and job tracking system

Designed backend logic and database schema

GitHub: <https://github.com/Rahulmaurya1234/careerconnect>

Live Demo: <https://careerconnect-3z8g.onrender.com/>

Salary Prediction Model (Machine Learning)

Built a machine learning model to predict salaries using structured data

Performed data preprocessing, EDA, and model evaluation using Random Forest

GitHub: <https://github.com/Rahulmaurya1234>

EDUCATION

B.Tech in Computer Science (AI/ML)

Kanpur Institute of Technology (2022 – 2026)

CERTIFICATIONS

Python Certification – GUVI

Microsoft 365 Copilot Workshop

SOFT SKILLS

Problem Solving

Employability & Communication Skills

Language

Hindi

English
